

October 29, 2015

Dear Honorable Judge:

I am rushing off to teach a class at UH Hawaii right now so this is a short note to say that I will be testifying in court on Nov 2nd in support of Darlene Brothers.

I was eye witness to the unending harassment with which the Bouchers have tormented my friend since they moved into Kuau Bayview in 2003. I was with Darlene at her house many times when Bruce Boucher shone blinding spotlights into her windows. I heard that horribly loud air compressor that Boucher would set to turn on and off all day long for the sole purpose to bother Darlene, but only when they were not there of course. I've witnessed firsthand Bruce's psychotic tirades at her and the name calling and insults. He was constantly calling her "Tweaker" and telling her to "Go back to Canada, Maui doesn't want you." But most important of all, I was there at the time Bouchers claim Darlene "violently struck his left eyebrow with a piece of plywood". I can state absolutely that this did not happen. In fact, it was Bruce who hit Darlene in the head with a piece of siding.

In the previous hearings, I went to court but always had to leave for work before the case was called and I fear it was my missing eye-witness testimony that resulted in the Boucher's lies holding sway with the judge. This time I will be there to clear Darlene's name.

Sincerely,
Ann Pitcaithley
